Flu Reimbursement Trainings

Generate Revenue for Your Community

Background: The University of Massachusetts Medical School's (UMMS) Commonwealth Medicine (CWM) division bills private health plans to provide reimbursement for the seasonal flu vaccine administered in public settings, including schools and public health clinics.

Purpose of the Training: This training will educate public health providers on how to obtain reimbursement from private health plans for the administration of the flu vaccine provided to individuals ages 6 months and older and the cost of privately purchased vaccine administered to individuals 19 and older.

Training Schedule:
